Velvet's Victory: A Life Reclaimed: On June 19, an SOS went out about a cruelty case: a 4-year-old female with an injured eye. Gaston County transported her the same day, and we met them at ECVR. Emaciated, anemic, heartworm positive, and with skin issues, Velvet's eye was our main concern. She had lived outside for years, bred repeatedly, her teeth broken from chewing at crates or fences. The next morning, doctors confirmed Pyometra—a life-threatening uterine infection. Surgery couldn't wait. They removed her uterus and her eye, and the operation was a success. Staff even dressed her in pajamas as she healed. Velvet then came to Paws Place for skin and heartworm treatment. Today, she has completed her heartworm care and is thriving. One final medical hurdle remains, but soon Velvet will be ready for her forever home.

Inside The Numbers

July - September

28 dogs Taken In
24 dogs Adopted
31 dogs Available
4 dogs in Medical Fosters
