#### **Proof of Resilience: Bridget's Journey to Joy**

When the call came, we didn't hesitate. Bridget arrived in the middle of the night—scared, in pain, yet impossibly gentle. Her front leg was too badly injured to save, and after surgery, she began her journey as a brave little tripod. Thanks to incredible veterinary care and a dedicated foster home, Bridget has healed beautifully.

Today, she is thriving. She's been spayed, her strength has returned, and her sweet, affectionate personality shines brighter than ever. At around four years old, Bridget is full of love, resilience, and quiet joy. She greets each day with a wagging tail, proving that losing a leg hasn't slowed her down one bit.

Bridget's journey is a testament to second chances and the power of compassion. Now fully ready for her next chapter, she's searching for a forever home filled with love, comfort, and companionship. Could that be with you?
